## PERSONAL STATEMENT

A front-end developer passionate about building complex and scalable applications with cross-platform functionality using the React framework. My background in digital design provides strong foundation for coherent user experience and visually appealing aesthetics. I am proficient in HTML, CSS, and Javascript. I am a highly motivated person and a quick learner. I am eager to become an asset, and contribute towards the success of your team or organization.

## EXPERIENCE

### Text Q&A

*Front-End React Developer, May 2023 - Present*

An interactive question-and-answer app that allows users to get real-time answers to questions posed during live talks

- Utilizing React hooks (useState, useEffect, useRef)
- Gaining knowledge in creating server-side web applications, having working closely with a JavaScript developer (node.js)
- Using React and SSE (server side events) for real-time notifications
- Website url: [www.textqa.com](http://www.textqa.com)
- GitHub Repository: <https://github.com/sho88/text-askme>
