PERSONAL STATEMENT

A front-end developer with commercial experience, passionate about building complex and scalable applications with cross-platform functionality using the React library. My background in digital design provides strong foundation for coherent user experience and visually appealing aesthetics. Proficient in HTML, CSS, and Javascript. I am a highly motivated person and a quick learner. Eager to contribute towards the success of your team.

EXPERIENCE

Text Q&A

Collaborative Project, Front-End Developer, Mar 2023 - Present

An interactive question-and-answer app that allows users to get real-time answers to questions posed during live talks

- Utilizing React hooks (useState, useEffect, useRef)
- Gaining knowledge in creating server-side web applications, having working closely with a JavaScript developer (node.js)
- Using React and SSE (server side events) for real-time notifications
- Website url: www.textqa.com
- GitHub Repository: <https://github.com/sho88/text-askme>
